

## Centerm Android device

# T101

## PROFILE

Centerm Android device, integrated function of pin pad, contact & contact-less IC card, magnetic card, fingerprint, e-signature and cameras, etc. Moreover, communication approach of Bluetooth, 4G, WI-F, GPS ; gravity and light sensor are involved for different circumstances

# Features

## Fully functioning Android System

With Oct Core 2.0 GHz powerful CPU and 10.1 display, pls Android 9, enables a flexible operation and clearer content

## Reliable and High Speed Communication

T101 has built-in reliable and high speed communication as 2.4/5G Wifi, LTE, which ensure s safety and durability in mobile operation

## Multi-factor Biometrics Authentication

Containing biometrics (fingerprint, iris, voiceprint and face), T101 could extremely improve and guarantee security

## IP 54 Rating Water & Dustproof

Relevant IP protection could with stand it exposure to dust and certain and splashing liquids
